INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/004331

Box No. I	Nucleotide and/or amino acid sequence(s) (Continuation of item1.b of the first sheet)
1. With rega	rd to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed the international search was carried out on the basis of:
a, type	of material .
×	a sequence listing
	table(s) related to the sequence listing
b, form	nat of material
	in written format
×	in computer readable form
c, time	of filing/furnishing
	contained in the international application as filed
×	filed together with the international application in computer readable form
	furnished subsequently to this Authority for the purposes of search
a Est In a	ddition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed
نتبا or fi	urnished, the required statements that the information in the subsequent or additional copies is identical to that in the
appl	lication as filed or does not go beyond the application as filed, as appropriate, were furnished.
